## Message from ISDT . . .

*The Indian Society of Dental Traumatology welcomes you to its 6<sup>th</sup> National Symposium, to be held at Coimbatore on April 2<sup>nd</sup> & 3<sup>rd</sup>, 2022. This society had been formed with a theme to Inspire, Innovate & Implement, and to achieve our final objective of 'Benefit Self and Benefit Patients.'*

*The society aspires to include dental and other healthcare professionals with interest in management of dental trauma and generate awareness among people. Currently, we have around 460 members from 20 states in the country, and 6 different countries. The members include general dentists, oral pathologists, endodontists, oral surgeons, pediatric dentists, public health dentists, periodontists, prosthodontists, orthodontists, oral medicine and radiologists, psychologists and forensic odontologists.*

*The Symposia are being organized in different parts of the country to reach maximum number of dental professionals. The scientific programme has been carved to cover almost all aspects of dental traumatology. Additionally, it also provides opportunity to the young minds to present their work on first day (April 2<sup>nd</sup>). The speakers are well known experts and are sharing their knowledge in the form of didactic lectures and workshops. We are hopeful that it will be a grand success at Sri Ramakrishna Dental College & Hospital, Coimbatore, Tamil Nadu.*

Dr. Vijay P Mathur  
President

Dr. Nitesh Tewari  
Secretary
